

Efficient Logistics for Special Shipments

Since our founding on August 1, 2014, we have specialized in the transportation of weapons, ammunition, explosives, and military equipment.

With a dedicated fleet of two dozen trucks and specially modified vehicles, we uphold the highest standards of safety and efficiency.

At Advanced ROAD, we recognize that every transport tells a unique story. Every customer and every shipment matters. Our team of professionals, combined with innovative technology, ensures that each journey is completed successfully and to our clients' full satisfaction.

We invite you to share your experiences with us—whether it's a seamless transport, recognition of our reliability, or exceptional customer service. Your stories inspire and drive us to continually improve.

Together, we create stories.

We hold a firearms license – CF115786.

Join us and share your experiences with Advanced ROAD.

Special Land Transport

Thanks to years of experience, a professional approach, and modern technology, we are among the leading carriers in this highly specialized field.

Transport of explosives, ammunition, and ordnance

Safe handling requires expertise and compliance with regulations. Our vehicles meet all standards, including ADR.

Project cargo transport

We approach each project individually, from planning to delivery.

Partial load and express transport

We provide fast and efficient transportation of small or urgent shipments.

Transport of artwork

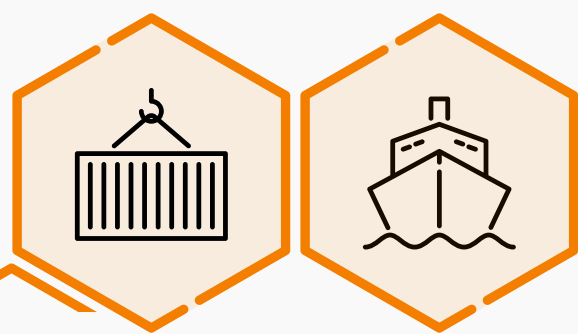

We safely and discreetly transport artworks with maximum protection.

Warehousing and transshipment

Secure storage solutions with value-added services like inventory management and distribution.

Transport of Maritime Containers and Warehousing

We provide comprehensive logistics solutions for the transportation of sea containers from key European ports to destinations across Central Europe

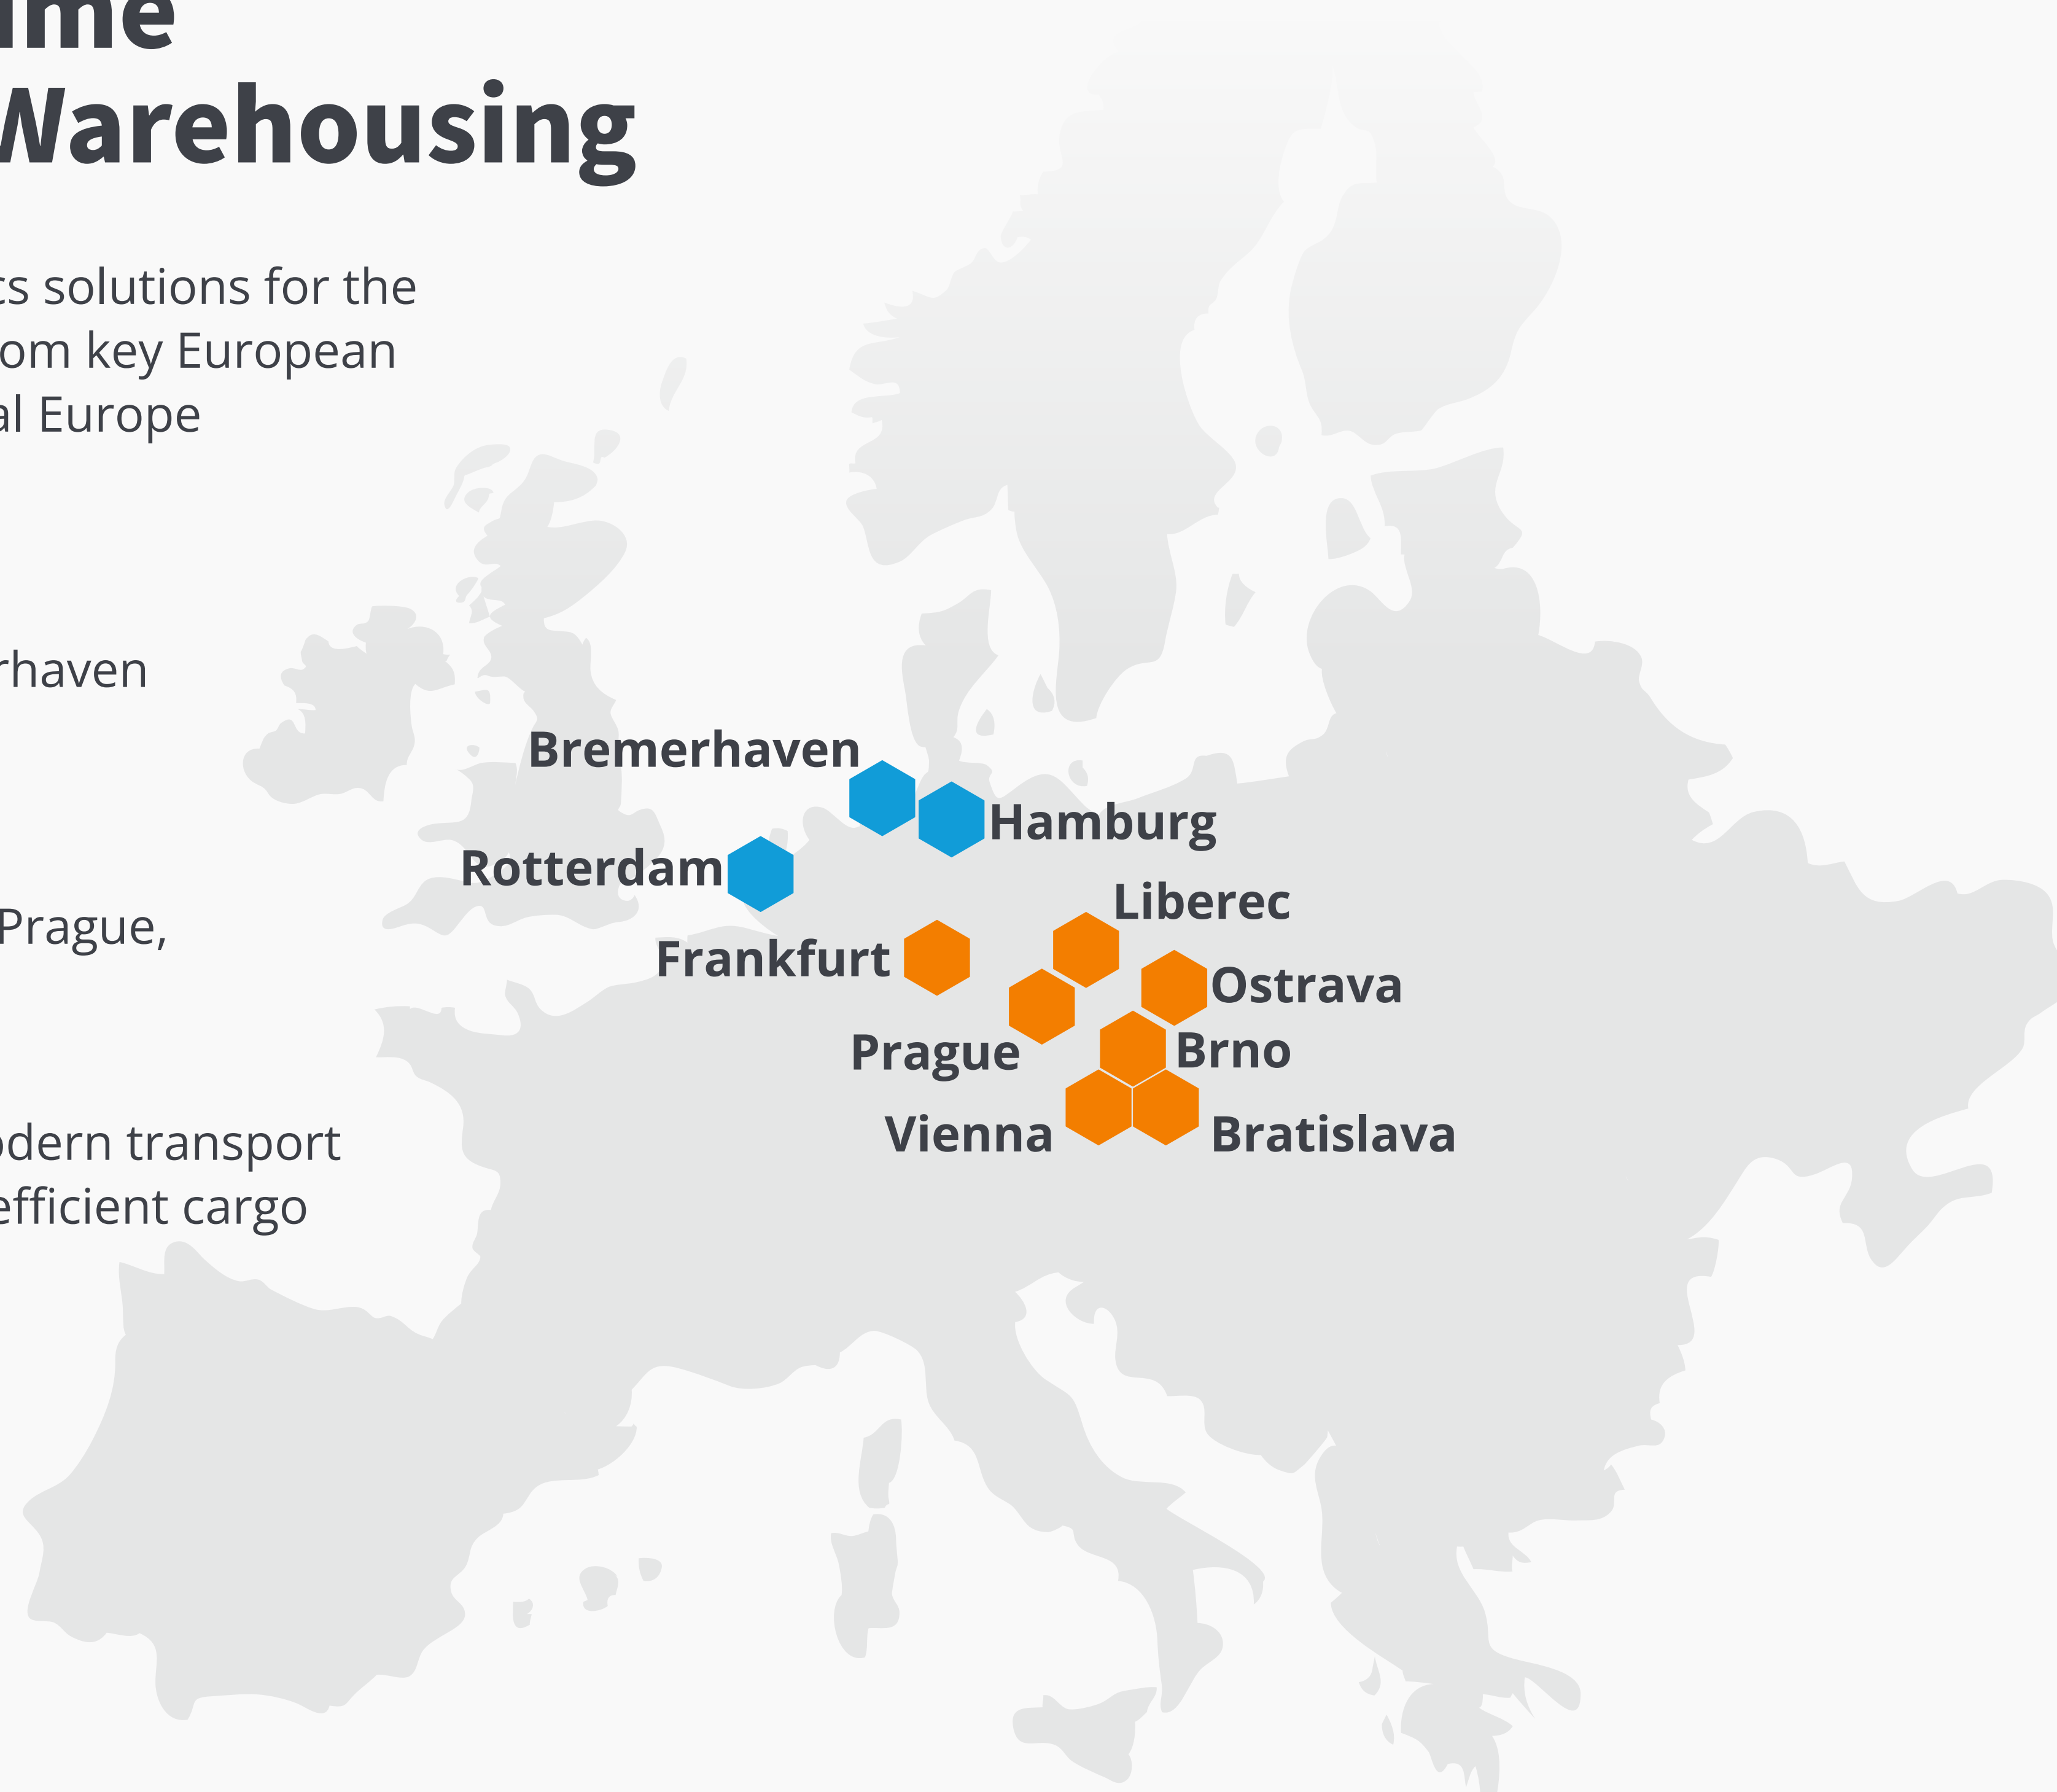

Ports

Rotterdam, Hamburg, Bremerhaven

Logistics centers

Frankfurt, Vienna, Bratislava, Prague, Brno, Ostrava, Liberec

With an extensive network and modern transport capacities, we guarantee fast and efficient cargo delivery to its final destination.
